

SEGREGATION OF MEDICAL WASTE

HEALTH WORKERS SHOULD SEGREGATE ALL WASTE IMMEDIATELY, ACCORDING TO CATEGORY

Non-infectious Waste

- Paper/packaging material
- Bottles/cans
- Food

Infectious Waste

- Dressing
- Gauze
- Gloves
- IV fluid lines

Highly Infectious Waste

- Blood bag
- Extracted teeth
- Used test tubes
- Anatomical waste e.g. Placenta

Sharps Waste

- Needles/syringes
- Scalpels
- Blades
- Broken glass

“To protect you, your patients and others from needle stick injuries and the spread of disease ensure that waste is disposed off in the right bin always”

USAID
FROM THE AMERICAN PEOPLE

AIDS Free
Strengthening High Impact Interventions
for an AIDS-free Generation

This poster is made possible by the generous support of the American people with support from the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) with the U.S. Agency for International Development (USAID). The contents are the responsibility of AIDSFree and do not necessarily reflect the views of USAID, PEPFAR, or the U.S. Government.
