

CAUSA Y EFECTO: LA INTERCONEXIÓN DE LAS CUESTIONES SOCIALES Y LA VIOLENCIA DOMÉSTICA

Una de cada tres mujeres experimentará violencia doméstica (VD) en su vida. VD no se produce de forma aislada; Existen vías hacia y desde un amplio espectro de temas sociales. Las personas, las familias y las comunidades experimentan estos problemas como profundamente entrelazados y simultáneos, lo que exige un enfoque integrado para abordar la VD. El gráfico a continuación muestra tres vías de un conjunto mucho más amplio de problemas sociales.

Factores estructurales más amplios, como políticas discriminatorias y normas culturales, dan forma a la expresión de estos temas sociales y su relación con la VD. Esto da lugar a disparidades y desigualdades basadas en raza, etnicidad, geografía, estatus socioeconómico, identidad sexual, entre muchos otros. **Es hora de que los líderes de múltiples sectores vean la imagen completa y trabajen juntos para desarrollar estrategias de respuesta ambiciosas que tengan en cuenta la complejidad y la escala de los problemas.**

Fue posible con el apoyo de Blue Shield of California Foundation. Traducción proveído por Culturally Responsive Domestic Violence Network (www.crdvnetwork.org).
