

Helping Partners **THRIVE**

To thrive in an ever-changing environment, organizations often need support and guidance to make the operational and technical improvements necessary to become sustainable and improve program outcomes. At JSI and World Education we understand this! We work hand-in-hand with partners to build strong, resilient organizations that are agile and responsive to change across technical areas and funders.

SUCCEED

AREAS OF EXPERTISE:

We help organizations
identify critical gaps,
source support through
multiple channels,
improve programs,
and diffuse learning
internally and
sector-wide

WHAT OUR PARTNERS ARE SAYING...

Meeting our partners where they are

“The way [JSI] approached us... it wasn’t prescriptive. It was really participatory and that was a real game changer.”

—MATIBABU FOUNDATION, KENYA

Building capacity holistically while promoting accountability, transparency, and local systems

“When leadership is strong, the organization survives. With JSI’s support, our board members have seen they are accountable and responsible, and that has helped us so much.”

—BOARD FOR NURSING & MIDWIFERY, LIBERIA

Sharing what is learned

“The training JSI organized for us has been very helpful. Almost all of us have been successful in submitting abstracts to international conferences.”

—MARITIME LIFE PRECIOUS FOUNDATION, GHANA

Moving partners along the continuum from competence and compliance to high performance

“We are so grateful because we can see the improvement in patient care and have been able to measure what we have done so far through self-audit.”

—SUAI REFERRAL HOSPITAL, TIMOR-LESTE

Customizing technical assistance

“The trainings, constant coaching, and mentoring from World Education/Bantwana programs, grants, and finance teams has strengthened our financial management and fraud control, especially in our shift to online finance management.”

—AIDS INFORMATION CENTER, UGANDA

Strengthening enabling environments

“These JSI tools help create a policy advocacy action plan more thoroughly and [help us] think about partnerships with new people or groups to make the action plan more powerful than ever.”

—RAKS THAI FOUNDATION, THAILAND

Striving for quality

“The quality of technical assistance products and services developed by JSI for Title X grantees has been exceptional. The work products, including a web-based training portal, meet and often exceed specifications...they demonstrate a commitment to continuous quality improvement.”

—OFFICE OF POPULATION AFFAIRS, HHS OFFICE OF THE ASSISTANT SECRETARY FOR HEALTH: USA

Innovation thrives,
communities benefit,
and programmatic
practices are
advanced when
our partners
take on new
challenges

WHAT OUR PARTNERS ARE SAYING...

“Bar Hostess has also played a big role in technical working groups because of the support offered by JSI. So, we are the “go-to people” the government calls when they want to learn what are the challenges the girls are facing on PrEP.”

— EMPOWERMENT AND SUPPORT
PROGRAMME, KENYA

“Now we can say that this capacity building process has helped to strengthen our systems and push us to the next level.”

— FACT MUTARE, ZIMBABWE

“The obvious difference before and after [JSI’s support] is the activeness of our multi-sectoral AIDS committee. Now we are very active. The whole community is aware of our [advocacy] activities. Now we are able to reach people.”

— AIDS COMMITTEE, TANZANIA

“...we have noticed other partners asking if we can develop joint proposals. Having implemented this project we are better placed to respond to future funding opportunities than before..”

— AFYA MZURI, ZAMBIA

INTERNATIONAL NGOs

CAPACITY DEVELOPMENT IS AT THE CORE OF WHAT WE DO GLOBALLY

THE CENTER FOR CAPACITY DEVELOPMENT at JSI and World Education houses a global team of experts and institutionalizes over four decades of experience from thousands of projects and state-of-the-art resources across disciplines and contexts. Using proven tools and approaches, we tailor support for our partners, promote innovative solutions, build organizational systems, facilitate networking and peer learning, and strengthen local systems. We serve as a resource to national governments, nongovernmental organizations, small community- and faith-based organizations, and private sector partners, and service networks.

An organization's path to high performance may not be straight, but it is always unique.

Let us help you assess where you are, build on what you know, and support you to maximize impact, mobilize funding, and make lasting change! Contact us to find out how we can work together.
