JSI's HIV & ID Center 2021 Highlights

SUPPORTING HIGH QUALITY HIV, TB AND COVID PROGRAMMING IN 47 COUNTRIES

JSI-LED PROGRAM RESULTS

HIV

- Tested over 845,000 people for HIV
- Delivered over 45,000 HIV self-test kits
- Identified more than 56,000 people living with HIV
- Treated over 511,000 ART clients
- Enrolled over 67,000 people on PrEP
- 94% of ART clients virally suppressed

TB

- Led DR-TB programming and strengthening laboratory management information systems
- Mitigated and managed TB/HIV co-infection through community linkage facilitators
- Co-designed national TB commitment grants with national TB programs in USAID TB priority countries
- Provided technical support for mobile health services to increase care access
- Improved risk communication systems for outbreak prevention and management
- Supported interactive TB data visualizations, analysis, and Quality of TB Services Assessments

COVID

- Delivered first dose of approved COVID-19 vaccine to over 1,034,062 people
- Transported 51,294 COVID-19 specimens
- Trained 1,023 people on surveillance and/or rapid response
- Reached 546,542 people with critical WASH supplies and services
- Reached 74.4 million people with COVID-19 risk communication messaging

PRIMARY WORK AREAS

Internal knowledge management

- Launched JSI-wide project management information system (HIV & COVID data)
- Provided technical assistance to 6 PEPFAR and 3 TB bilateral and centrally funded projects
- Organized 6 lunch and learn sessions for ID, HSD & WEI staff
- Held 12 monthly WEI/JSI steering committee meetings
- Convened 1st international HIV technical summit with >60 participants

External engagement and communication

- Launched Center landing page on jsi.com
- Developed HIV resource page
- Rolled out JSI index testing e-learning course
- Submitted >25 abstracts for Union, ICASA, IAS conferences
- Produced 6 external newsletters reaching >11K distribution list with 35.3% unique open rate
- Amplified JSI's HIV, TB and COVID work on LinkedIn and Twitter
- Served as Co-Chair for Global AIDS Policy Partnership IP group

EXAMPLES OF OUR WORK
